

# Define Packages

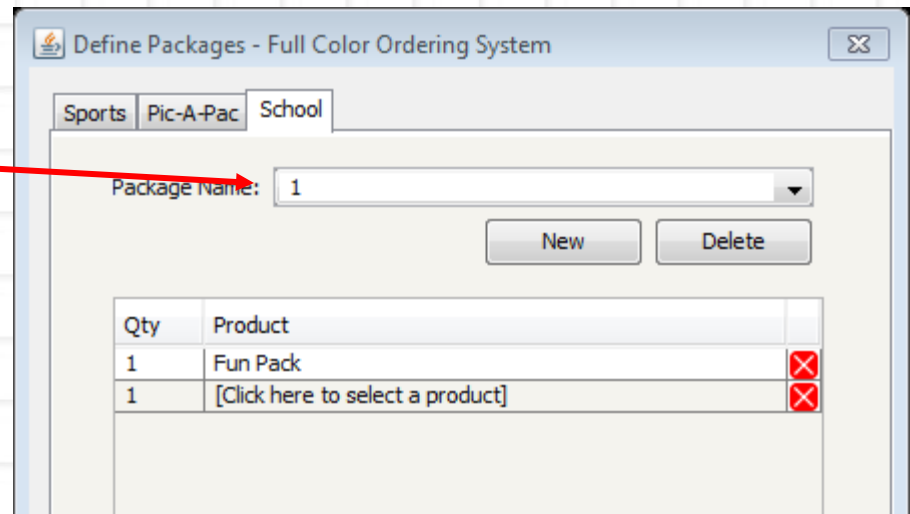

Suggestion:  
Use single character  
lower case letters for  
package description for  
fast data entry.

Do not put buttons in  
packages. They  
require the image to  
be repositioned for  
cropping.

If you offer  
personalized wallets,  
put them in a package  
by themselves.

Use numbers for  
add-ons.

# Define Packages Warning!

Do not put buttons in packages. They require the image to be repositioned for cropping.

Sell these products as add-ons.

Personalization applies to all items in a package.

Do not put graphic products in packages with personalized items.
